SUBJECT INDEX

Book Reviews

Atom, Man and the Universe 111
Dictionary of Hydrogeology 111
Physics of the Magnetosphere 207
Principles of Geomorphology 208
Concepts of the Universe 209
Pulsating Stars 2—A Nature Reprint 210
The New Cosmos 210
Small Rocket Instrumentation Techniques 210

Earth tides

The response of the Earth to loading by ocean tides around Nova Scotia, A. *Lambert* 449

Geomagnetism

Geomagnetic deep sounding and upper mantle structure in the western United States, *J. S. Reitzel, D. I. Gough, H. Porath and C. W. Anderson III* 213
Separation of magnetic variation fields and conductive structures in the Western United States, *H. Porath, D. W. Oldenburg and D. I. Gough* 237
Kinematic dynamo problem, *Tomikazu Namikawa and Sadami Matsushita* 395
Permanent aspects of the Earth's non-dipole magnetic field over Upper Tertiary times, *R. L. Wilson* 417

Gravity

A catalogue of gravity data from Kenya, *R. C. Searle* 543

Heat flow

Measurement of *in situ* sediment conductivity by means of a Bullard-type probe, *C. R. B. Lister* 521

Letters to the Editors

Palaeomagnetism of the Lisbon volcanics: a discussion of a recent paper by N. D. Watkins and A. Richardson, *K. M. Storetvedt* 107
A Taylor series approach to the rotation and evaluation of spherical harmonics, *R. W. James* 203

Lunar phenomena

The determination of lunar daily geophysical variations by the Chapman–Miller method, *S. R. C. Malin and S. Chapman* 15

Magnetic properties of rocks

Activation energy of cation migration in titanomagnetites, *K. M. Creer. Jill Ibbetson and W. Drew* 93
Absence of correlations between opaque petrology and natural remanance polarity in Canary Island lavas, *J. M. Ade-Hall and N. D. Watkins* 351

Oceanic structure

North Atlantic crustal genesis in the vicinity of the Azores, *C. D. Krause and N. D. Watkins* 261

PAGE

Palaeomagnetism

Palaeomagnetic and rock magnetic studies on the Cenozoic basalts from Western Argentina, *K. M. Creer and D. A. Valencio* 113
Palaeomagnetism and K–Ar ages of Cenozoic basalts from Argentina, *D. A. Valencio, E. Linares and K. M. Creer* 147
The palaeomagnetism of the Ethiopian flood basalt succession near Addis Ababa, *A. Brock, I. L. Gibson and P. Gacii* 485

Properties of rock

The pressure dependence of the elastic constants of cubic crystals in the NaCl and spinel structures from a lattice model, *Charles G. Sammis* 285
The theory of brittle fracture initiation under triaxial stress conditions—*I. S. A. F. Murrell and P. J. Digby* 309
The theory of brittle fracture initiation under triaxial stress conditions—II. *S. A. F. Murrell and P. J. Digby* 499

Research Notes

A graphical method for removing rubidium contamination from strontium isotopic data, *Ian R. Pringle* 103
The use of Rayleigh's Principle in seismology, *Harold Jeffreys* 201
An astatic magnetometer with rotating sample, *D. W. Collinson* 547

Seismology

Multiple array measurements of the *P*-wave travel-time derivative, *Derek J. Corbishley* 1
Great circle Rayleigh and Love wave dispersion from 100 to 900 seconds, *A. Dziewonski and M. Landisman* 37
Estimation of *P*-wave travel times using the joint epicentre method, *R. C. Lilwall* and *A. Douglas* 165
Seismic investigations in the North Sea, 3 to 7, *B. J. Collette, R. A. Lagaay, A. R. Ritsema and J. A. Schouten* 183
Diffracted *ScS* and the shear velocity at the core boundary, *Bruce A. Bolt, Mansour Niazi* and *M. R. Somerville* 299
Love wave dispersion in a homogeneous crust overlying a continuous mantel with vertical inhomogeneity, *S. N. Bhattacharya* 335
Love wave dispersion in a laterally heterogeneous layer lying over a homogeneous semi-infinite medium, *S. N. Bhattacharya* 361
Effects of major seismic events on the rotation of the Earth, *Ari Ben-Menahem and Moshe Israel* 367
Comparison of least-squares analysis of long and short period *P*-wave amplitude, *G. Willey and J. R. Cleary and P. D. Marshall* 439
Apparent stresses of earthquakes on ridges compared to apparent stresses of earthquakes in trenches, *Max Wyss* 479
S to *P* conversion as an aid to crustal studies, *Warwick D. Smith* 513
Correlation of M_{LH} and m_{pv} by data of the network of seismic stations of the U.S.S.R., *V. I. Bune, N. A. Vvedenskaya, I. V. Corbunova, N. V. Kondorskaya, N. S. Landyrevan and I. V. Fedorva* 533
